Version 1.3

DESCRIPTION:

Cables Unlimited brings A/V enthusiasts the next generation of easy to hide, flat digital video and audio cables. Extremely flexible and only 3.6 mm thick, its ideal for running along walls or under carpeting, while providing superior signal transfer from your A/V components. These high quality HDMI cables deliver the optimum video and multiple channel audio signals required for connecting today's high-end DVD players, BLU-RAY, HD cable boxes, AV receivers, HDTVs & Plasmas. These premium cables are Fully HDCP and HDMI Revision 1.3 compliant.

FEATURES:

- HDMI 1.3 Compliant, supporting up to 10.2 Gbps Bandwidth.
- Supports uncompressed audio/video signals.
- Gold Plated connectors to provide highest level of signal quality.
- Supports multiple audio formats, from stereo to multi-channel sound.
- Perfect for both high-definition video and standard video formats.
- Supporting up to 1080p resolution and 8 channel surround sound.
- Ideal for HDMI Plasma Displays, DTV, LCD, TV, BLU-RAY, HD, HDTV & More!
- Fully shielded for maximum protection from RFI and EMI interference.
- Made with Flat “Twisted Pair’ Design to reduce Crosstalk.
